TAMRALIPTA PUBLIC SCHOOL

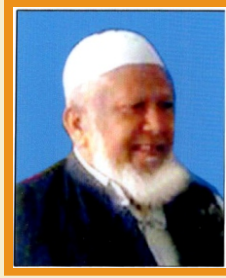

(A Dream Project of N.H.K. Welfare Foundation)

Affiliated to the Council for the Indian School Certificate Examinations.
for I.C.S.E. (X) & I.S.C.(XII), New Delhi

Lower Nursery To Class XII

ABOUT THE SCHOOL :-

Tamralipta Public School, a second home for your child, situated at Tamruk, Purba Medinipur, is the outcome of the untiring effort and earnest desire of Late Haji Sk. Kazem Ali, Late Mst. Hasina Begam and

Late Sk. Bulbul Islam. Since its inception on 12th February, 2006, the school has been catering to the holistic development of children under the banner of N.H.K. Welfare Foundation, a non-profitable organization, founded in the year 2003 aimed at spreading the bliss of English Medium Education among the students residing in and around Tamruk and now much beyond. The aim of the school is to provide high quality education at an affordable cost. The medium of instruction is English, but students need to be also proficient in either Hindi or Bengali. The school is recognised by the Deputy Director of Secondary Education, West Bengal and is affiliated to the C.I.S.C.E. (Council for the Indian School Certificate Examinations, for I.C.S.E. & I.S.C., New Delhi.) The school strictly follows the syllabus as per the guidelines of National Education Policy 2020.

From Principal's Desk ...

Times are changing and so our education. The student of 21st century is an individual, a person with feelings of self respect, responsibility and compassion. We need to recognize and appreciate this individuality of our students. Education is not about books and examinations, it is an overall development of a student.

We give lot of importance to make discipline a core value, encourage students to develop a sense of responsibility through a well planned academic schedule, various Inter School Competitions, Sports and Cultural Activities.

In Tamralipta Public School everyone goes through a beautiful voyage of putting in effort and time. We embolden our students to face the challenges of life and at the same time help the students to move more cautiously ahead with determined strides to become responsible global citizens.

We feel blessed for having a dedicated team of teachers, administrative staff and above all cooperative and concerned parents. I take this opportunity to thank all the parents who have reposed their faith in our school. We assure to do the best for the students and respect your patronages. Finally I would like to say "Education is not preparation for life, education is life itself."

With profound regards,

Mr. Saibal Dutta

(M.A., M. Phil, M.B.A., B.Ed)

Pre-Primary (Lower Nursery to KG)

The well educated person is a well developed person who knows how to live a healthy life in every aspect of human existence a well developed personality

- Dr. Maria Montessori

★ **PRACTICAL LIFE** ★ **SENSORIAL** ★ **MATHEMATICS** ★ **LANGUAGE**
★ **GEOGRAPHY AND SCIENCE**

PRACTICAL LIFE

This part of the Pre-Primary program aims at encouraging students to perform deeds that promote freedom, build synchronization and indulge students in social activities which serve as a doorway to a meaningful life. At this juncture, the children learn to practice work independently. This practical area includes a variety of items commonly used in the day to day life like eating, putting on a costume and so on. Apart from the bookish knowledge this programme encourages promoting students' high self esteem.

The enrichment program offered by TPS under Pre-Primary programme includes

- **Subject based knowledge**
- **Music & Dance**
- **Yoga and Slokas**
- **Art and Craft**
- **Story Narration and Conversation**
- **Outdoor Play**
- **Exercises of Practical Life**
- **Digital classroom teaching**

SENSORIAL :

Sensorial materials are offered aiming at the total development of the child. Each of the activities isolates one defining quality, such as color, weight, shape, texture, size, sound and smell. The main purpose of these activities is to help the child sort out the many impressions collected by the senses. The Sensorial materials help the child to distinguish, to categorize, and to relate new information to what he/she already knows.

MATHEMATICS :

Pre-Primary mathematics enable even a very young child to achieve a natural appreciation of mathematical concepts through his or her own efforts. By using concrete materials during the early years, the child can learn the basic concepts of mathematics and the relationship between numbers and quantities. Mathematics activities are organized into five groups:

- **Introduction to numbers**
- **Introduction to the decimal system**
- **Introduction to tens and counting**
- **Arithmetic tables**
- **Abstraction**

LANGUAGE :

In the Pre-Primary House of Children, they learn to express themselves. The freedom offered to the children creates many opportunities for them to communicate with their peers and the adults. We emphasize the development of vocabulary based on real experiences and the early preparation required for reading and writing. Advanced activities take the child well beyond the basic skills into reading and writing for interpretation, creativity and pleasure.

The language area contains many learning opportunities such as:

- o Learning the shapes and sounds of the letters
- o Perfecting the fine motor skills for writing
- o Vocabulary development
- o Matching of words and pictures
- o Reading silently
- o Reading development-reading word lists, sentences, stories

GEOGRAPHY AND SCIENCE :

Pre-Primary Programme devised special care and attention to teach knowledge of the entire world and its places which will be taught on spontaneous interest from the kids. Separate elements are presented to the kids to understand the earth and geographical locations visually. The materials include

- o Land and water globe
- o Continent globe
- o World map puzzle
- o India puzzle
- o Picture folders of animals

Science is an integral element of the Pre-Primary Educational Programme. The program is designed to cultivate the child's curiosity and determination to discover the truth. One goal of Pre-Primary science is to cultivate a lifelong interest in observing nature and discovering more about the world in which we live. Some science activities you could see in a Pre-Primary classroom are activities of growing plants and classification of plants and animals.

Classes and Curriculum

Junior School - Junior school (classes I to IV) has the system of grading to judge the academics performance of the students.

Each class is under the supervision of specialized subject teachers who teaches various subjects and interacts with the students for their betterment in academics.

Subjects taught at this level are English Language, English Literature, EVS (for classes I & II) Science (for classes III & IV) Mathematics, Social Studies (for classes III & IV) and Hindi / Bengali. The subject "Computer" is also introduced at this stage.

Middle School - The Middle School consists of classes V to VIII. In this section the Science subjects divide into three groups namely Physics, Chemistry & Biology from VI onwards. The English being the 1st language is given the utmost importance and divides into literature and language. Social Studies gets divided into History, Civics and Geography from class VI. The 3rd Language classes starts from class V and ends at class VIII. Educational field trips once a year are arranged.

SECONDARY & HIGHER SECONDARY SCHOOL (CLASSES : IX & X) AND (CLASSES XI & XII)

Secondary School (Classes IX & X)

Seminars, Presentations, Workshops and Counseling are organized the skills sets of the students.

---	---

Group - III

Computer Applications (Subject Code : 86)	Economic Applications (Subject Code : 87)	Physical Education (Subject Code : 72)	Robotics & Artificial Intelligence (Subject Code : 66)
--	--	---	---

TEACHING FRATERNITY :-

The School is headed by the Principal and a team of well qualified, experienced, trained and dedicated teachers together impart quality education. Teachers are empowered & frequently trained by best resource persons on various aspects of methodology of teaching. For the enhancement of the academic quality, the school also has Academic Co-ordinators for different Academic levels.

The school also gives equal importance to the Co-Curricular activities which are under the supervision of Co-Curricular Activity Incharges.

UNIFORM :-

The school uniform symbolizes the ethos and spirit of the school of which the student is an integral part. House colour T-shirt and black track pants is to be worn on days of activity / sports /

EVALUATION & PROMOTION :-

Student merit and performance are assessed through a system of continuous evaluation in the primary classes through a series of planned tests. The school strictly follows grading system till class IV in order to avoid unhealthy competition and comparisons among children. Marks along with grades are allotted from class V onwards. The yearly curriculum is broken up into two terms. Assessment sheets are regularly maintained in order to update the child's progress. Promotion is not granted if a student has less than 75% attendance. (except on Medical grounds). Promotion is given on the basis of yearly performance as per NEP 2020. In all matters regarding promotion, Principal's decision is final.

CO-CURRICULAR ACTIVITIES :-

Regular workshops for the teachers and parents are conducted by reputed counseling and consulting centre to solve the burning issues regarding the handling of the students.

Varied activities in Socially Useful Productive Work (SUPW) & Art and Craft are integral part of curriculum. Other co-curricular activities are * Guitar * Classical Dance, * Western Dance, * Drawing, * Quiz, * Debate * Public Speaking * Elocution * Karate * Yoga, Games & Sports are integral part of the academic calendar. * Summer Camp (Pre-Primary)

LABORATORY & LIBRARY :-

The school has separate laboratories for Physics, Chemistry, Biology, Geography & Mathematics with all the necessary equipments. Tamralipta Public School has a well stocked library. It is the store house of knowledge and has more than 5000 books on all subjects. It has a good collection of story books, reference materials, magazines and periodicals to help the children to develop good reading habits under the guidance of a librarian.

HOUSE SYSTEM :-

The House System is devised to promote team spirit and a sense of belongingness to the school. Also, this enables the senior students of the school to provide care and help their junior schoolmates. The House system provides excellent opportunities for student leadership and peer group support, aided by dedicated staff members, and house captains. It is a remarkable medium for enabling students of different ages to bond together and operate as a cohesive family. The House system helps to support and co-ordinate the corporate life of the school and develops the athletic side of school life along with the purely scholastic aspect, and thereby attains the goal of a liberal education, namely "a healthy mind in a healthy body". The house system provides students with support and encouragement during their academic and co-curricular activities.

AWARDS / CERTIFICATES FOR VARIOUS CATEGORIES

1. Sk. Kazem Ali Memorial Award for I.C.S.E. School Topper.
2. Sk. Bulbul Islam Memorial Award for I.S.C. School Topper.
3. Academics
